

Deses'po'rate housewives

Facilitator Notes

Description

Demonstrate how important it is for a delivery team to interact with its Product Owner

Material

- Colour pencils
- A4 paper

PREPARATION

- Print the sprint cards
- Print the ubiquitous language

Roles

- Client (played by the facilitator)
- Delivery team

Sprint 1

- Distribute the story #1, if there is any question the client is not available
- Production - 2'
- Presentation - 1'
- The team chooses a member in order to present the result of the sprint
- Inspect & adapt - 1' to improve

Sprint 2

- Distribute the story #2, the client is available only if the issue has been identified by the team during the introspection time

Debriefing (only at the end of the game)

- Sprint 1:
 - Do not start anything without acceptance criteria
 - No extra features (Lean): **ex:** tree, road, and so on...

- We can finish before the end of the time (no needs to over engineer)
- Client/Product Owner availability ⇔ risk
- Share an ubiquitous language
- Share retrospectives learnings
- Just in Time

Sprint cards

#1

Draw a House

Draw a house on a A4 paper.

Characteristics

The house should have:

- A door
- A roof
- A garage
- Windows

#2

Draw my House

Draw the front of a house on a A4 paper using coloured pencils.

The house has two floors (ground and first floor), a garage large enough for a vehicle and all windows are identical.

Characteristics

- Ground floor: The entrance door is green and a window is located on the left.
- First floor: Two windows and a red hip-roof.
- Garage: A blue sectional garage door with a roof terrace.

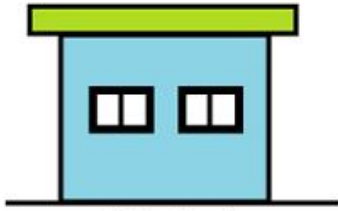

Ubiquitous Language

Sectional Garage Doors are named due to their construction, being made of separate sections which open vertically.

A **hip roof**, **hip-roof** or **hipped roof**, is a type of **roof** where all sides slope downwards to the walls, usually with a fairly gentle slope.
